Department of Public Utilities

Request for Bids

Water Treatment Chemicals

Harnett County (the “County”) is soliciting firm BIDS for the purchase and delivery of water treatment chemicals for the period from July 1, 2017 through June 30, 2018. Purchases will be in full tanker truck loads (TTL), less than full tanker truck loads (LTL), totes, pallet loads or as noted below. All pricing is delivered. No fuel surcharges will be considered unless spot diesel fuel prices for over the road vehicles rise above \$4.50 per gallon for 60 consecutive days.

GENERAL SPECIFICATIONS & INSTRUCTIONS TO BIDDERS

Scope

It is the intent of this request for bids to obtain proposals for supplying the materials, supplies and/or equipment listed in the Bid Proposal Sheets, attached hereto and hereby incorporated herein.

Compliance with Specifications

Supplier’s quote must be in strict compliance with the specifications and offer the same or equal materials. Harnett County Department of Public Utilities (HCDPU) reserves the right to allow or disallow minor deviations from the specifications in order to purchase what best meets the needs of the County from a standpoint of quality, price and service to be rendered.

Warranty

In submitting a quote, the bidder warrants that all goods furnished shall be free from all defects and shall conform in all respects to the technical specifications established herein. The bidder expressly warrants that all items bid are fit and sufficient for their intended purpose.

Shipping

All prices are to be quoted F.O.B. delivered, unless otherwise specified. Risk of loss and/or damage shall be upon the seller until such time as the goods have been physically delivered and accepted by the County. LTL deliveries shall be made by the supplier submitting the quote. No subcontracting of these deliveries is allowed.

Unit Prices to Prevail

Prices shall be submitted on per unit basis by line item. In the event of a disparity between the unit price and the extended price, the unit price shall prevail.

Bid Price Corrections

No corrections will be permitted after bid opening.

Use of Brand Names and References

Unless otherwise stated, the use of manufacturer's names and product numbers are for descriptive purposes and establishing general quality levels only.

Rejection of Bids

The County reserves the right to reject any and all bids.

Award

Award shall be made to the lowest responsive responsible bidder (also referred to as "Supplier") for each item taking into consideration quality, performance and time specified in the proposal for the performance of the contract. Time of delivery and prompt payment discounts will be considered in breaking tie bids. **Harnett County reserves the right to award individual bids for each chemical requested or to combine any and all bids dependent upon meeting the best interests of the County.** Bidders may provide pricing for one or more items and are not required to submit pricing or forms for those items not bid.

Taxes

Harnett County is exempt from and will not pay federal taxes. An exemption certificate will be furnished upon request. North Carolina and local sales tax shall be shown as a separate item. The North Carolina Sales & Use Tax Technical Bulletin, dated December 1, 2008, Section 59-15 states that "Chemicals which are introduced in the water during the purification processes are exempt from tax" and Section 59-19 states that sewage treatment plants are not manufacturers under the Sales and Use Tax Law, and the purchases of chemicals are subject to the general rate of State tax and any applicable local sales or use tax." Sales tax will not be a consideration in the award.

Payment

Upon complete delivery and receipt of a correct invoice, payment will be made by County Net 30.

Terms and Conditions

Terms and Conditions included herein are an integral part of the bid document and shall prevail unless changes or attachments are agreed to and initialed by Harnett County prior to the bid opening. Terms and Conditions attached to the bid by the bidder and made a condition of purchase may render the bid non-responsive and may be rejected by Harnett County.

- A. Contract Term/Conditions:** This is a contract for one (1) year beginning July 1, 2017 and ending June 30, 2018. Although the contract is for one (1) year, said contract may be terminated at any time if funds are not appropriated and made available by the Harnett County Board of Commissioners. Bidder warrants that bid prices, terms, and conditions quoted in his/her bid will be firm for acceptance for a period of one (1) year.

- B. Contract Extension:** Harnett County reserves the right to renew this contract after the initial contract term expires subject to the same terms and conditions upon agreement of both parties, provided that funds have been appropriated by the governing board and performance under this contract has been satisfactory. Price increase shall be considered at contract renewal time and may be cause for non-renewal.

Default

Failure to satisfactorily perform the services required by the contract for the project will be grounds for County to declare the successful bidder in default. Unless otherwise provided herein, the contract may be canceled or annulled with a 30-day notice by County in whole or in part by written notice of default to the bidder upon nonperformance or violation of contract terms. An award may be made to another bidder for services specified, or they may be purchased on the open market and the defaulting supplier shall be liable to County for costs to the County in excess of the defaulted contract prices. The bidder shall continue the performance of this contract to the extent that any part is not terminated under the provisions of this clause.

Training/Safety

When requested or required, a factory trained representative shall be made available to train County personnel in the use of and/or safety aspects of the equipment or chemical. The successful bidder shall provide a Safety Data Sheet (SDS) for each product prior to the first delivery. The supplier/transporter shall be responsible for adhering to all federal, state and local safety rules and regulations. All supplier/transporter employees shall adhere to all safety practices and use of approved PPE during off loading chemicals. The supplier/transporter shall be responsible for any and all chemical spills during off loading of chemicals (containment, cleanup and abatement) in accordance with the facility's written SPCC plan.

Contractor's Representative for Business Purposes

The name, mailing address, electronic mail address, facsimile number, and telephone number of the supplier's authorized agent with authority to bind the firm and answer official questions concerning the supplier's proposal must be clearly stated.

Leaking Containers During Shipment

All containers delivered will be inspected for leakage upon arrival and prior to unloading. Leaking containers will not be unloaded and accepted by the County. Response and remediation for any containers determined to be leaking shall remain the responsibility of the transporter. Dented or damaged chlorine cylinders will not be accepted and will be rejected at delivery. Removal of the rejected cylinders will be the supplier's responsibility.

Tie Bids

In the event of identical bids, the County will base its award recommendation on the following basis: (1) prior service records; and (2) type equipment utilized to service the County.

Indemnity and Insurance

Bidder will indemnify and hold harmless the County, its officers, agents, and employees from and against all loss, cost, damages, expense and liability caused by accident or other occurrence resulting in bodily injury, including death and disease to any person, or damage or destruction to property, real or personal, arising directly or indirectly from operations, products, or services rendered or purchased under the contract. Bidder, at its sole expense, will purchase and maintain the insurance listed below as A, B, & C.

- A. Automobile – Automobile bodily injury and property damage liability insurance in an aggregate amount of at least \$1,000,000.00.
- B. Commercial General Liability-Bodily injury and property damage liability as will protect bidder from claims of bodily injury or property damages which arise from operations of this contract. The amounts of such insurance coverage shall not be less than \$2,000,000.00 per

occurrence and \$5,000,000.00 aggregate coverage. This insurance shall include coverage for products/completed operations, personal injury liability and contractual liability.

- C. Workers' Compensation and employers' liability meeting the statutory requirements of the State of North Carolina.

The successful bidder shall provide the County with a certificate of such insurance which shall name County as an additional insured and contain the provision that the County will be given thirty (30) days written notice of any intent to amend or terminate by either the insured or the insuring company. However, a ten (10) day notice is sufficient for cancellation due to non-payment of premium.

Equal Opportunity Employer

Harnett County is an equal employment opportunity employer. The County is a federal contractor, and therefore the provisions and affirmative action obligations of 41 CFR § 60-1.4(a), 41 CFR 60-741.5(a), and 41 CFR 60-250.4 are incorporated herein by reference, where applicable.

Other

1. Certified copy of chemical analysis shall accompany bid and each delivery.
2. Delivery shall be made F.O.B. Harnett County Department of Public Utilities' plants as directed at time order is placed.
3. Prices shall include loading, unloading, pumping, pallets and all charges related to delivery.
4. Unit prices calculated other than as requested on the bid proposal sheet will not be considered unless it is easy to convert to requested bid units.

Questions

Please direct all questions concerning the specifications, the RFQ, points of delivery, etc. for Water Treatment Chemicals to Allan O'Briant, Water Plant Superintendent, P.O. Box 1119, Lillington, NC 27546, (910) 893-7575 x3238 or aobriant@harnett.org.

BID PROPOSAL

Item 1. CAUSTIC SODA (SODIUM HYDROXIDE, 50%)

Estimated Quantity 300 Dry Tons Quote TTL Price per dry ton \$ _____

The cost of this chemical varies due to strength. Provide the formula used for calculating the delivered cost from the unit price using the wet weight delivered and chemical analysis. **Failure to include the formula may be grounds for dismissal of bid.**

Manufacturer _____ Brand _____

Notes: In addition to the detailed specifications, the following requirements pertain:

1. Delivery of approximately 45,000 pounds (TTL) of Caustic Soda (50%) to the water plant from time to time as required by Harnett County Department of Public Utilities.
2. Delivery shall be made within 96 hours of request between the hours of 8:00 a.m. and 4:00 p.m., Monday through Friday.

Item 2. COPPER SULFATE

Estimated Quantity 4,000 lbs. Quote Price per lb. \$ _____

Manufacturer _____ Brand _____

Notes: In addition to the detailed specifications, the following requirements pertain:

1. Delivery of approximately 1,250-2,000 pounds (in 50 lb bags or pails) of copper sulfate to be made from time to time as required by Harnett County Department of Public Utilities.
2. Delivery shall be made within 168 hours of request between the hours of 8:00 a.m. and 4:00 p.m., Monday through Friday.

Item 3. HYDROCHLORIC ACID 15%

Estimated Quantity 200,000 lbs. Quote TTL Price per wet lb. \$ _____

The cost of this chemical varies due to strength. Provide the formula used for calculating the delivered cost from the unit price using the wet weight delivered and chemical analysis. **Failure to include the formula may be grounds for dismissal of bid.**

Manufacturer _____ Brand _____

Notes: In addition to the detailed specifications, the following requirements pertain:

1. Delivery of approximately 45,000 pounds (TTL) of 15% Hydrochloric Acid to be made from time to time as required by Harnett County Department of Public Utilities.
2. Delivery shall be made within 96 hours of request between the hours of 8:00 a.m. and 4:00 p.m., Monday through Friday.

Product Specifications

ITEM NO. 1

SODIUM HYDROXIDE (50%)

1.1 Scope

Sodium hydroxide supplied for water plant use under this specification shall conform to current provisions of AWWA B-501 Standard

This specification covers sodium hydroxide for use in water treatment. The estimated annual usage is 300 dry tons for full truck loads (TTL). Pricing will be per dry ton TTL.

1.2 Purpose

The purpose of this specification is to provide manufacturers and suppliers with the minimum requirements for sodium hydroxide, including physical, chemical, packaging, shipping, and testing requirements.

1.3 Physical Requirements

Liquid sodium hydroxide is a solution of anhydrous sodium hydroxide and water.

1.4 Chemical Requirements

Sodium hydroxide delivered under this contract for the water plant shall contain approximately 50 percent sodium hydroxide (NaOH).

1.5 Impurities

1.5.1 General. The sodium hydroxide supplied according to this specification shall contain no soluble material or organic substances in quantities capable of producing deleterious effects on the health of those consuming water that has been treated properly with the sodium hydroxide.

1.5.2 Specific Impurity Limits. Sodium hydroxide supplied to the water plant shall contain no more than the following percentages of specific impurities:

- Mercury 0.5 ppm
- Arsenic 1.5 ppm
- Lead 5 ppm
- Heavy Metals(as lead) 15 ppm
- Iron, 0.0008% dry weight basis
- Sodium Chloride, 2.2% dry weight basis

1.6 Sampling and Analysis

1.6.1 Sampling. Samples requested by a Harnett County employee shall be taken by the driver at the point of delivery and in the presence of a Harnett County employee. The sample shall be placed in a container that will be provided by the County, which shall include a label to be completed by the driver collecting the sample. The sample shall be given to the Harnett County employee for processing.

1.6.2 Tank Samples. The sample taken by the driver should be a representative sample of the product delivered. Samples shall be held by County for 30 days before disposal.

1.6.3. Analysis. No independent analysis of the provided samples will be performed by an outside laboratory unless it is deemed necessary for product verification. A Harnett County employee supervising chemical delivery may perform simple tests such as specific gravity, pH or strength of product on the product before it is accepted for offloading into the County's storage vessels.

1.7 Rejection

1.7.1 Notice of Nonconformance. If the sodium hydroxide delivered does not meet the requirements of current ANSI/AWWA B501 Standard, a notice of nonconformance shall be given to the supplier by County within ten days of County's discovery of nonconformance. County shall have the right to reject all nonconforming product.

1.7.2 Material Originating Outside of North America. No material shall be supplied under this contract that was manufactured outside of North America without written approval of the County. The supplier shall inform the County, in writing, that the material was manufactured outside of North America, the origin of the material, and certification of conformance with current ANSI/AWWA B501 Standard.

1.8 Affidavit of Compliance

The County requires (1) an affidavit from the manufacturer that the sodium hydroxide furnished under these specifications complies with all applicable requirements of current ANSI/AWWA B501 Standard. (2) A certified analysis of the sodium hydroxide and a certified weight certificate shall be furnished by the supplier with each shipment. The analysis shall include product content.

1.8.1 Product Certifications. Sodium hydroxide is a direct additive used in the treatment of potable water. The material for the water plant should be certified as suitable for contact with or treatment of drinking water by an accredited certification organization in accordance with ANSI/NSF Standard 60, Drinking Water Treatment Chemicals - Health Effects. Evaluation shall be accomplished in accordance with requirements that are no less restrictive than those listed in ANSI/NSF Standard 60. Certification shall be accomplished by a certification organization accredited by the American National Standards Institute.

1.9 CHEMICAL SPILL RESPONSE REQUIREMENTS

1.9.1 Hazmat Response Team. Each chemical supplier shall furnish the name, address and telephone number of a qualified Hazmat Response Team. This team shall be supplied by the supplier to clean-up and mitigate a chemical spill caused by the supplier or its designee. The Hazmat Response Team must meet OSHA requirements and be available twenty-four (24) hours per day, seven (7) days per week.

1.9.2 Spill Response. Response to a hazardous material clean-up shall occur within eight (8) hours of notification by the treatment plant or the authorized representative, Spill mitigation actions taken by HCDPU personnel shall not be construed as a replacement for Chemical Spill Response. The Plant Supervisor or authorized designee shall make the determination of need for Hazmat Response Team assistance. Supplier must supply information on response team prior to first shipment.

2.0 PACKAGING & SHIPPING

Packaging and shipping of all sodium hydroxide solutions shall conform to all applicable local, state and federal regulations (including USDOT regulations and applicable interstate regulations).

ITEM NO. 2 COPPER SULFATE

1.1 Scope

Copper Sulfate supplied under the contract shall conform to current provisions of ANSI/AWWA B602 Standard.

This specification covers copper sulfate for use in the treatment of water supplies. The estimated annual usage is 4,000 lbs. Purchase is by pallet lots containing ~50 lb bags or pails of copper sulfate. Other containers may be used upon approval by County.

1.2 Purpose

The purpose of this specification is to provide manufacturers and suppliers with the minimum requirements for copper sulfate, including physical, chemical, packaging, shipping, and testing requirements.

1.3 Physical Requirements

Common Industrial grades preferred are Fine-20 or Fine-30

1.4 Chemical Requirements

The copper sulfate supplied under this specification means the blue triclinic cupric sulfate pentahydrate crystal form with the formula $\text{CuSO}_4 \cdot 5\text{H}_2\text{O}$ and shall not contain less than 25 percent metallic-copper equivalent. It is a commercial grade product containing at least 99 percent $\text{CuSO}_4 \cdot 5\text{H}_2\text{O}$.

1.5 Impurities

1.5.1 General. Copper sulfate that meets the requirements of this specification shall contain no substances in quantities capable of producing deleterious or injurious effects on the health of those consuming water that has been properly treated with copper sulfate.

1.5.2 Specific Impurity Limits. The copper sulfate supplied to the Harnett County Water Plant shall contain no more than 0.5 percent water insoluble matter.

1.6 Sampling and Analysis

1.6.1 Sampling . A sample may be taken of each container when opened by a County employee and placed in a labeled container.

1.7 Rejection

1.7.1 Notice of Nonconformance. If the copper sulfate delivered does not meet current requirements of ANSI/AWWA B602 Standard, a notice of nonconformance shall be given to the supplier by County within ten days of County's discovery of nonconformance. County shall have the right to reject all nonconforming product.

1.7.2 Material Originating Outside of North America. No material shall be supplied under this contract that was manufactured outside of North America without written approval of the County. The supplier shall inform the County, in writing, that the material was manufactured outside of North America, the origin of the material, and certification of conformance with current ANSI/AWWA B602 Standard.

1.8 Affidavit of Compliance

The County requires (1) an affidavit from the manufacturer that the copper sulfate furnished under these specifications complies with all current requirements of ANSI/AWWA B602 Standard. (2) A certified analysis of the copper sulfate and a certified weight certificate shall be furnished by the supplier with each shipment. The analysis shall include product content.

1.8.1 Product Certifications. Copper sulfate is a direct additive used in the treatment of potable water. This material should be certified as suitable for contact with or treatment of drinking water by an accredited certification organization in accordance with ANSI/NSF Standard 60, Drinking Water Treatment Chemicals - Health Effects. Evaluation shall be accomplished in accordance with requirements that are no less restrictive than those listed in ANSI/NSF Standard 60. Certification shall be accomplished by a certification organization accredited by the American National Standards Institute. Copper Sulfate is required to be registered with USEPA under FIFRA.

1.9 CHEMICAL SPILL RESPONSE REQUIREMENTS

1.9.1 Hazmat Response Team. Each chemical supplier shall furnish the name, address and telephone number of a qualified Hazmat Response Team. This team shall be supplied by the supplier to clean-up and mitigate a chemical spill caused by the supplier or its designee. The Hazmat Response Team must meet OSHA requirements and be available twenty-four (24) hours per day, seven (7) days per week.

1.9.2 Spill Response. Response to a hazardous material clean-up shall occur within eight (8) hours of notification by the treatment plant or the authorized representative, Spill mitigation actions taken by HCDPU personnel shall not be construed as a replacement for Chemical Spill Response. The Plant Supervisor or authorized designee shall make the determination of need for Hazmat Response Team assistance. Supplier must supply information on response team prior to first shipment.

2.0 PACKAGING & SHIPPING

Packaging and shipping of copper sulfate shall conform to all applicable local, state and federal regulations (including USDOT regulations and applicable interstate regulations). Because copper sulfate is generally used by water utilities to control algae growth, it is a pesticide as defined by current federal regulations. Each package must bear a label reviewed and accepted by USEPA. This label must list, among other items, the brand name (if any), the manufacturer or supplier, the active ingredient and content, the net weight of the contents, and it must bear a USEPA registration number as well as the USEPA establishment number indicating where the product was manufactured or last repackaged. Failure to provide this label is subject to punishment under federal law. Packages shall also bear markings required by the Department of Transportation (DOT). The price per pound of Copper Sulfate will include the cost of materials to ship product to its destination such as pallets.

1.7 Rejection

1.7.1 **Notice of Nonconformance.** If the calcium thiosulfate delivered does not meet the requirements of this specification, a discovery of nonconformance shall be given to the supplier by County within ten days of County's notice of nonconformance. County shall have the right to reject all nonconforming product.

1.7.2 **Material Originating Outside of North America.** No material shall be supplied under this contract that was manufactured outside of North America without written approval of the County. The supplier shall inform the County, in writing, that the material was manufactured outside of North America, the origin of the material, and certification of conformance with these specifications.

1.8 Affidavit of Compliance

The County requires (1) an affidavit from the manufacturer that the Captor furnished under these specifications complies with all applicable requirements of these specifications. (2) A certified analysis of the Captor and shall include product content.

1.9 CHEMICAL SPILL RESPONSE REQUIREMENTS

1.9.1 **Spill Response.** Response to spilled material clean-up shall occur within eight (8) hours of notification by the treatment plant or the authorized representative, Spill mitigation actions taken by HCDPU personnel shall not be construed as a replacement for Chemical Spill Response. The Plant Supervisor or authorized designee shall make the determination of need for Hazmat Response Team assistance. Supplier must supply information on response team prior to first shipment.

2.0 PACKAGING & SHIPPING

Packaging and shipping of all Captor solutions shall conform to all applicable local, state and federal regulations (including USDOT regulations and applicable interstate regulations).

ITEM NO. 3
HYDROCHLORIC ACID (15%)

1.1 Scope

Hydrochloric acid supplied for the water plant use under this specification shall conform to all provisions of applicable AWWA Standards.

This specification covers Hydrochloric Acid (15%) for use in water treatment. The estimated annual usage is 200,000 pounds. Pricing is requested for full truck loads (TTL) on wet weight basis.

1.2 Purpose

The purpose of this specification is to provide manufacturers and suppliers with the minimum requirements for hydrochloric acid (15%), including physical, chemical, packaging, shipping, and testing requirements.

1.3 Physical Requirements

Hydrochloric acid is an acidic, white to yellow, clear liquid, corrosive, with irritating odor.

1.4 Chemical Requirements

Hydrochloric acid delivered under this contract for the water plant shall be a minimum of 14.5% and a maximum of 16% hydrochloric acid and have a minimum specific gravity of 1.04

1.5 Impurities

1.5.1 **General.** The hydrochloric acid supplied according to this specification shall contain no soluble material or organic substances in quantities capable of producing deleterious effects on the health of those consuming water that has been treated properly with the hydrochloric acid.

1.6 Sampling and Analysis

1.6.1 **Sampling.** Samples requested by a Harnett County employee shall be taken by the driver at the point of delivery and in the presence of a Harnett County employee. The sample shall be placed in a container that will be provided by the County, which shall include a label to be completed by the driver collecting the sample. The sample shall be given to the Harnett County employee for processing.

1.6.2 **Tank Samples.** The sample taken by the driver should be a representative sample of the product delivered. Samples shall be held by County for 30 days before disposal.

1.6.3. **Analysis.** No independent analysis of the provided samples will be performed by an outside laboratory unless it is deemed necessary for product verification. A Harnett County employee supervising chemical delivery may perform simple tests such as specific gravity, pH or strength of product on the product before it is accepted for offloading into the County's storage vessels.

1.7 Rejection

1.7.1 **Notice of Nonconformance.** If the hydrochloric acid delivered does not meet the requirements of the applicable ANSI/AWWA standard or these specifications, a notice of nonconformance shall be given to the supplier by County within ten days of County's discovery of nonconformance. County shall have the right to reject all nonconforming product.

1.7.2 **Material Originating Outside of North America.** No material shall be supplied under this contract that was manufactured outside of North America without written approval of the County. The supplier shall inform the County, in writing, that the material was manufactured outside of North America, the origin of the material, and certification of conformance with the applicable ANSI/AWWA Standard and these specifications.

1.8 Affidavit of Compliance

The County requires (1) an affidavit from the manufacturer that the hydrochloric acid furnished under these specifications complies with all the applicable requirements of ANSI/AWWA Standards and these specifications. (2) A certified analysis of the hydrochloric acid and a certified weight certificate shall be furnished by the supplier with TTL shipment. The analysis shall include product content.

1.8.1 **Product Certifications.** Hydrochloric acid is a direct additive used in the treatment of potable water. The material for the water plant should be certified as suitable for contact with or treatment of drinking water by an accredited certification organization in accordance with ANSI/NSF Standard 60, Drinking Water Treatment Chemicals - Health Effects. Evaluation shall be accomplished in accordance with requirements that are no less restrictive than those listed in ANSI/NSF Standard 60. Certification shall be accomplished by a certification organization accredited by the American National Standards Institute.

1.9 CHEMICAL SPILL RESPONSE REQUIREMENTS

1.9.1 **Hazmat Response Team.** Each chemical supplier shall furnish the name, address and telephone number of a qualified Hazmat Response Team. This team shall be supplied by the supplier to clean-up and mitigate a chemical spill caused by the supplier or its designee. The Hazmat Response Team must meet OSHA requirements and be available twenty-four (24) hours per day, seven (7) days per week.

1.9.2 **Spill Response.** Response to a hazardous material clean-up shall occur within eight (8) hours of notification by the treatment plant or the authorized representative, Spill mitigation actions taken by HCDPU personnel shall not be construed as a replacement for Chemical Spill Response. The Plant Supervisor or authorized designee shall make the determination of need for Hazmat Response Team assistance. Supplier must supply information on response team prior to first shipment.

2.0 PACKAGING & SHIPPING

Packaging and shipping of all hydrochloric acid solutions shall conform to all applicable local, state and federal regulations (including USDOT regulations and applicable interstate regulations).

EXECUTION OF PROPOSAL PAGE

Water Treatment Chemicals

Date: _____

By submitting this proposal, Supplier certifies the following:

An authorized representative of the firm has signed this proposal.

It can obtain insurance certificates as required within 10 calendar days after notice of award.

The Supplier has determined the cost and availability of all equipment, materials and supplies associated with performing the services outlined herein.

All labor costs, direct and indirect, have been determined and included in the proposed cost.

The Supplier is aware of the prevailing conditions associated with performing this contract.

The Supplier agrees to complete the scope of work for this project with no exceptions.

Therefore, in compliance with the foregoing Request for Proposal, and subject to all terms and conditions thereof, the undersigned offers and agrees, if this proposal is accepted within (60) days from the date of the opening, to furnish the services for the prices quoted.
