**REPORT ON COMPLIANCE AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING
BASED ON AN AUDIT PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

Board of County Commissioners
Harnett County, North Carolina

We have audited the general purpose financial statements of Harnett County, North Carolina, as of and for the year ended June 30, 2002, and have issued our report thereon dated October 17, 2002. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether Harnett County's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed two instances of noncompliance that are required to be reported under Government Auditing Standards, which are described in the accompanying schedule of findings and questioned costs as Items 02-1 and 02-2.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Harnett County's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control over financial reporting. However, we noted certain matters involving the internal control over financial reporting and its operation that we consider to be reportable conditions. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control over financial reporting that, in our judgment, could adversely affect Harnett County's ability to record, process, summarize and report financial data consistent with the assertions of management in the financial statements. Reportable conditions are described in the accompanying schedule of findings and questioned costs as item 02-3.

A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be reportable conditions and accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, we believe none of the reportable conditions described above is a material weakness. We noted other matters involving the internal control over financial reporting that we have reported to management of Harnett County in a separate letter dated October 17, 2002.

This report is intended for the information and use of the audit committee, management, others within the organization, members of the Board of Commissioners, and federal and State awarding agencies and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.

REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR FEDERAL PROGRAM AND INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133 AND THE STATE SINGLE AUDIT IMPLEMENTATION ACT

Board of County Commissioners
Harnett County, North Carolina

Compliance

We have audited the compliance of Harnett County, North Carolina, with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement and the Audit Manual for Governmental Auditors in North Carolina, issued by the Local Government Commission, that are applicable to each of its major federal programs for the year ended June 30, 2002. Harnett County's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of Harnett County's management. Our responsibility is to express an opinion on Harnett County's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations, and the State Single Audit Implementation Act. Those standards, OMB Circular A-133, and the State Single Audit Implementation Act require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Harnett County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on Harnett County's compliance with those requirements.

In our opinion, Harnett County complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2002.

Internal Control Over Compliance

The management of Harnett County is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered Harnett County's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133 and the State Single Audit Implementation Act.

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses.

This report is intended for the information and use of the audit committee, management, others within the organization, members of the Board of Commissioners, and federal and State awarding agencies and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.

II. Financial Statement Findings

Prior year findings repeated in the current year are indicated by an asterisk ().

REPORTABLE CONDITIONS

(*) FINDING: 02-1 (*)

Non-Compliance with Laws and Regulations

Criteria: North Carolina General Statutes require that fund deficits be "fully appropriated" when adopting the budget ordinance for the subsequent year. For General Statute purposes, "fully appropriated" means a transfer that affects fund balance rather than a loan.

Condition: The fund deficit in the Section 8 Housing Fund (the "Fund") of approximately \$87,350 as of June 30, 2002 was not "appropriated" during fiscal 2002.

Effect: Non-compliance with regulations.

Cause: The Board is aware of the deficit, which occurs due to the timing of payments.

Recommendation: Management needs to, on a periodic basis, evaluate the ability of the Fund to fund the deficit and appropriate the funds if necessary.

HARNETT COUNTY, NORTH CAROLINA
SCHEDULE OF FINDINGS AND QUESTIONED COSTS (continued)
Year Ended June 30, 2002

II. Financial Statement Findings (continued)

FINDING: 02-2 (*)

Non-Compliance with Laws and Regulations

Criteria: North Carolina General Statutes require that actual expenditures do not exceed appropriated expenditures at the legal level of budgetary control.

Condition: The budgetary ordinance for the county is prepared at the department level. During the year ended June 30, 2002, expenditures exceeded appropriated amounts at the level of budget ordinance appropriation as follows:

Fund	Department	Budget	Actual	Variance
General	Emergency Medical Services	\$ 4,526,997	\$ 5,138,242	\$ (611,245)

Effect: Non-compliance with regulations.

Recommendation: We recommend that the County implement a process whereby they monitor the budget versus actual financial results monthly in order to identify the need for budgetary amendments prior to the end of the fiscal year.

(*) FINDING: 02-3 (*)

Internal Controls

Criteria: Internal controls are enhanced when the responsibilities for executing a transaction, recording the transaction, and maintaining custody of the assets resulting from the transaction are assigned to different individuals. Appropriate documentation should be used consistently throughout the departments.

Condition: In reviewing cash receipt procedures in offices outside the Finance Department, we noticed a lack of segregation of duties in many of those offices due to the small number of employees. Internal controls are enhanced when the responsibilities for executing a transaction, recording the transaction, and maintaining custody of the assets resulting from the transaction are assigned to different individuals.

Effect: While it may be convenient to have one person authorized to receive cash, record the accounts receivable payment, and make the deposit to Finance, such a situation does not provide the ideal internal control structure.

Cause: Many departments have a small number of employees, resulting in difficulty in achieving adequate segregation of duties.

Recommendation: We believe it would be in the County's best interests to implement a rotation schedule for the review of controls related to cash receipts in each ancillary department to see whether they can be strengthened. The Finance department should work with all departments, especially the transportation department, to develop the appropriate documentation for accepting cash receipts.
