Preventing the spread of disease

Environmental Health:

Provides inspections and active enforcement of county and state rules and regulations. Issues on-site wastewater treatment (septic) permits. Conducts sanitation inspections and rules for restaurants, school lunchrooms, and other food establishments. Monitors and enforces drinking water quality. For more information please call our office at 910-893-7547.

Protecting the environment; this can make our community a healthier place to live.

Health Education: Educating the public about health issues is a goal of public health. Public health education serves to reinforce health promotion messages within the community. Health Educators work to mobilize community partnerships and to identify and solve community health problems. For more information, contact the Health Education Division at 910-893-7550.

Learn what steps you can take to improve your health

Child Health: Provides healthcare for children (birth until age 21). Services include well child checkups and physicals for kindergarten, daycare, and head start programs. Appointments are required for all clinical checks and/or exams. For more information, or to make an appointment, please call 910-893-7550.

Immunizations help protect children from illnesses.

Care Coordination for Children (CC4C): Serves children from birth to 5 years of age. Services provided by Care Managers are tailored to meet the patient's needs. The main goal of this program is to improve health outcomes for enrolled children. For more information call 910-893-7550.

Pregnancy Care Management Program (PCM): The goal of this program is to improve the quality of maternity care services, birth outcomes, and provide continuity of care. Pregnant women may receive PCM during pregnancy and until two months postpartum. For more information call 910-893-7550.
