HealthyHarnett

building healthier communities

HealthyHarnett

Healthy Harnett is a group of several organizations, community members, hospitals, the health department, the community college, Head Start, rural health centers, community-based organizations and others. The partnership's ultimate goal is to identify the health care needs of all Harnett County residents and to meet those needs through coordinated efforts and services.

Members of Healthy Harnett are advocates for improving the health and welfare of our citizens, and we work together on a number of different issues, including:

- Educating families about the importance of medication safety for senior citizens
- Encouraging healthy nutrition and the impact it has on a healthy lifestyle
- Teaching parents about the link between obesity and diabetes in children
- Sharing information about HIV/AIDS and its effect on our community
- And much more!

If you, your civic group or your church is searching for ways to positively impact adults and children in Harnett County, we welcome you to get involved in Healthy Harnett. Whether your interest is personal or professional, your contribution of time and talents is greatly appreciated.

For more information about Healthy Harnett partnership meetings, please call 910-893-7550 or visit our website at www.harnett.org.

*Never underestimate what we can accomplish
if we dare to work together* – unknown
