

Harnett County Health Department

Potassium Iodide (KI) Distribution

Harnett County Public Health Officials will distribute potassium iodide (KI) tablets to Harnett County residents located within the 10-mile Emergency Planning Zone (EPZ) of the Harris Nuclear Power Plant on:

Saturday, October 17, 2015

9:00 a.m. until 12:00pm

North West Harnett Fire Department
6015 Christian Light Rd Fuquay-Varina

There is not a charge for the tablets. Potassium iodide (KI) is a protective measure for the general public to supplement evacuation and sheltering in the event of a severe nuclear power plant (NPP) accident.

Residents who live within 10 miles of the nuclear plant can obtain KI for their families at this distribution site or by contacting the Health Department regarding other distribution options.

Public Health Officials on site will also be providing flu shots during the KI distribution.
