### **Limit in-person visits to the pharmacy.**

- Plan to order and pick up all your prescriptions at the same time. If possible, call prescription orders in ahead of time.
- Use drive-thru windows, curbside services (wait in your car until the prescription is ready), mail-order, or other delivery services. Do the same for pet medicine.
- Check with your doctor and pharmacist to see if you can get a larger supply of your medicines so you do not have to visit the pharmacy as often.
