Plans which are submitted for lodging establishments (hotels and motels) require plan review to assure compliance with the North Carolina *Rules Governing the Sanitation of Lodging Establishments* (15A NCAC 18A .1800), which is necessary to obtain an operations permit once construction is approved.

Plans must be submitted with the following supporting documentation:

- _____ Plans must include drawing showing the placement of equipment in the facility, including any storage, laundry, continental breakfast areas*, trash can wash facilities, along with general plumbing, electrical, and mechanical and lighting drawings.
- _____ Plans must include a room finish schedule.
- _____ Plans must include a site plan locating exterior equipment such as dumpsters or compactors, pools and indicating the proposed connections to approved sewer and water connections.
- _____ Plans must be submitted separately for swimming pools.
- _____ A completed Lodging Application must be submitted with this paperwork.

*Continental breakfast is limited to the serving of bakery items, whole fruit, beverages and packaged items in single service wrappers. Lodging establishments that provide only continental breakfasts do not require permitting as foodservice establishments and do not need to complete a separate Food Service Establishment Plan Review Application. Establishments preparing potentially hazardous foods must submit a separate application and have approval before construction/renovation.
