Services Adult Medicaid program determines adult Medicaid eligibility for the disabled and elderly in a private living arrangement or in a long term care/rest home setting. Medicaid is a program that pays medical bills for eligible low-income people who cannot afford the cost of health care. Our programs include full Medicaid; MRB-E/MQB-B (Medicaid qualified beneficiaries) which is limited to paying Medicare premiums, co-insurance, Medicare hospital deductibles and the 20% that Medicare does not pay; MRB-E/MQB-B (Medicaid qualified beneficiaries) that only pays monthly Medicare premium; CAP coverage which is a community alternative program for those who would otherwise be institutionalized but can remain at home as long as their cost of care does not exceed a nursing home cost of care rate; SAIH (Special Assistance in Home) , which provides financial assistance for eligible recipients so they may remain in their own home instead of being placed in a facility.
