SOFT FEATURES

TRANSFER

While on an active call:

- ☎ Press the **Transfer** soft key.
- ☎ Dial the number to which you are transferring the call.
- ☎ Just hang up, or when you hear ringing, press **Transfer** again, or when the party answers, announce the call and press **Transfer** (announced transfer).
- ☎ Hang up to end your participation in the call.

Note: To get the caller back, simply hit the **Line** button again.

FORWARD

This feature allows calls to your primary extension to be redirected to another extension number (i.e. another phone or to voicemail). You can forward incoming calls to an IP phone or a non-IP phone.

To forward incoming calls:

-  Press the **CfwdAll** soft key.
-  Dial **extension number** to where you want your calls directed.

Note: only works on 1st extension (primary extension)

To forward incoming calls directly to voicemail:

-  Press the **CfwdAll** soft key.
-  Press the **Message** button. (Envelope button).

Calls are now forwarded directly to voicemail.

To cancel forward:

-  Press **CfwdAll** soft key.

CALL HOLD

-  During an active call, press the **Hold** soft key.
-  To return to the call, press the **Resume** soft key.

CALL PARK

This feature allows you to store or “park” a call at a specified number and then use another phone to retrieve the call.

-  During an active call, press the **more** soft key until you see the **Park** button.
-  Press **Park**. The display shows the number to which the call is parked.
-  Make a note of the Call Park number and then hang up. The call is now parked at that number, allowing you to retrieve it from another phone.

Retrieving a Parked call

-  From a phone on the same system, dial the Call Park number and begin speaking.

CALL PICKUP

This feature allows you to answer a call that comes in on a telephone extension other than your own. When you hear an incoming call ringing on another phone, you can redirect the call to your phone by using this feature.

-  Press a line button.
-  Press the **Pickup** soft key. Answering the incoming call that is redirected to your phone

CONFERENCE

This feature allows three people to simultaneously communicate via the same line. While on an active call (either incoming or outgoing):

-  Press the **More** soft key and then the **Confrn** soft key. This opens a new line while placing the other party(ies) on hold and initiates a conference bridge.
-  Dial the number of the party to be added to the conference call.
-  When the call connects, press **Confrn** again to add this party to the call.
-  Repeat the first three steps to add more callers.

Note:

- Once the conference call initiator disconnects, no new conferees can be added.
- Keep in mind that when you place a call on hold a beeping tone is generated every few seconds. To avoid disrupting the other callers, consider muting the call instead.
- To abandon the addition of a conferee, press the **Line** button.

INITIATING A MEET-ME CONFERENCE CALL

A Meet-Me conference is used to allow more than three parties to talk on a conference call simultaneously. For this, the system has to set aside the necessary bandwidth on the network to handle the call. To set up a Meet-Me Conference Call, you must dial a special conference number established by your system administrator.

-  Contact the CallManager administrator and obtain a conference number.
-  Lift the **Handset** and press the **More** soft key once to display the **Meet-Me** tab.
-  Press the **Meet-Me** soft key.
-  Dial the **Meet-Me** conference number obtained from your CallManager administrator.

JOINING A MEET-ME CONFERENCE CALL

In a Meet-Me conference call, participants dial a pre-arranged conference number at a specific time to meet on a call.

-  Lift the handset.
-  Dial the conference number provided by the Meet-Me conference initiator.

Note: You will be connected to the conference once the initiator has dialed in and established the call.

LAST NUMBER REDIAL

-  Lift the Handset and press the **Redial** soft key. OR
-  Press the **Redial** soft key to place the call via **Speakerphone**.

INFORMATION FEATURES

CALL HISTORY

Call History gives you a list of missed calls, received calls or placed calls at your phone.

-  Press the **Directories** button (Open book Button) to display the Directory menu.
-  Use the  scroll bar to highlight the desired call history option: Missed Calls, Received Calls, or Placed Calls.
-  Press the **Select** soft key to display the desired call history.
-  To speed dial a number, use the  scroll bar to highlight the desired number and press the **Dial** soft key. (If you decide not to make the call, press the Exit soft key twice to exit the Directories menu.)

Note: If you have other people’s extension numbers appearing on your phone, the missed call log will tell you all calls missed on those lines, too, not just your primary extension.
