THE CARTER CLINIC^{PA}

CONTINUING A LEGACY OF EXCELLENCE
IN BEHAVIORAL HEALTH

Continuing A Legacy of Excellence in Behavioral Health

The Carter Clinic offers mental health services for adults, children, adolescents and families whose problems interfere with daily life. If you need someone to talk to or want to know if medications can help, we are here for you. We have board certified Psychiatrists and Physicians who specialize in Opiate Use Disorder Treatment. We are committed to creating a practice where excellent care is provided to all we serve. Communication between the members of our team is an essential part of the services we provide. Each person encountered by our providers will be treated with courtesy, fairness and respect. We seek to provide a place where the values of our providers and those we serve are considered relevant to assessment and treatment interventions within our recognized professional standards of care.

COGNITIVE AND MEMORY ASSESSMENT PROGRAM

Ronald W. Cottle, MD

Dr. Ronald W. Cottle provides care to all ages with an emphasis on the geriatric/older adult population. He sees community dwelling elders for chronic and acute conditions. Geriatrics is a medical specialty that addresses the complex needs of older adults and emphasizes maintaining health and functional independence even in the presence of chronic disease.

Problems that are more frequently seen in older adults include:
memory loss, gait and balance disturbance with falls/pain syndromes, managing loss, end-of-life issues, and the need for cognitive assessment and care-planning/transitional care.

The Health Center is open to people of all ages for primary health care.
