3.1.2 Manufactured Homes

RA-30 Zoning District

All requirements or conditions shall be met prior to issuance of a Certificate of Occupancy (CO) for the home.

- The structure shall be built to the HUD code for manufactured homes.
- The structure shall have an a-pitched roof that is covered with material commonly used in standard residential roofing construction. Said material shall be installed properly and be consistent in appearance.
- The structure shall have underpinning consisting of a brick curtain wall or have galvanized metal sheeting, ABS, or PVC plastic color skirting with interlocking edges, installed around the perimeter of the home. Skirting shall be consistent in appearance, in good condition, continuous, permanent, and unpierced except for ventilation and access.
 - In cases where the proposed home is located in Flood Zone AE, the home shall be located on a masonry foundation only, with approved flood vents or breakaway skirting. See "Flood Damage Prevention" Section of this Ordinance for more information.
- The exterior siding shall consist predominantly of vinyl, aluminum, wood or hardboard; and shall be comparable in composition, appearance, and durability to the exterior siding commonly used in standard residential construction. Said exterior siding shall be in good condition, complete, and not damaged or loose.
- The tongue or towing device shall be removed or landscaped.

HARNETT COUNTY COMPREHENSIVE GROWTH PLAN

VISION

Harnett County is a unified, safe, healthy, and engaged community that is culturally vibrant, well-planned with a thriving economy and a high-quality educational system, in harmony with its environmental and beautiful natural resources, and with strong leadership ensuring equitable services so that all citizens will prosper.

FUTURE LAND USE CATEGORIES/ AGRICULTURAL AND RESIDENTIAL AREAS

Rural / Agricultural: Primarily agricultural and forestry uses with some rural business and rural residential areas. These areas are located outside of existing and planned utility service areas and rely on septic systems for wastewater treatment. The lack of utility and transportation infrastructure should limit the density of development to very low-density single family residential up to one dwelling per acre.

LAND USE GOALS & STRATEGIES

LU-1: Manage growth in order to protect natural resources, agricultural areas and rural character.

H-1: Accommodate a mixture of housing types in appropriate areas.

Strategy 1A: Ensure zoning policies continue to provide ample opportunity for a variety of housing types.
